

Rhonda Karges – Andrew Resource Field Manager for the BLM is the wife of Chad Karges Refuge Manager for the Malheur Wildlife refuge.

Rhonda is who specifically deals with all the BLM issues relating to the area in and around Hammonds property, “grazing denial, etc” and her husband just happens to be the person in charge all the issues “water rights, access, etc.” that the refuge would have with the Hammonds. Do you think they talk about it at home?
